Keys Federal Credit Union Adopts Ann-Marie Thurber's Class

Keys Federal Credit Union is proud to adopt Ann-Marie Thurber's fourth grade class at Sugarloaf Elementary School.

Adopt-A-Classroom enables individual and corporate donors to sponsor classrooms at public schools in communities nationwide. Participating donors commit to a \$500 contribution per classroom, which the program directs to teachers, permitting them to purchase much needed teaching resources and offset their out-of-pocket expenses incurred throughout the school year. Teachers spend an average \$1,200 of their own money each year for classroom supplies.

Keys Federal Credit Union encourages local businesses to take an active role in our community's schools by adopting a classroom. For more information, visit www.adoptaclassroom.com.

Membership is open to everyone who lives or works in the Keys.
